

Lemon Eye

Indie rock, chamber pop, hints of RnB: Berlin based Lemon Eye refuses to be boxed into musical clichés. Sometimes loud and flamboyant, other times quiet and dreamy, the group playfully jumps back and forth between genres, ensuring a constant flow of emotions.

Founded in 2022, their instrumental makeup is also anything but conventional: the typical formation of drums, bass and guitars is elevated in some songs by the melodic sound of a cello. Lively and playful performances but also bittersweet and lighthearted lyrics that don't always take themselves too seriously - that, is Lemon Eye.
